MODUL 1

Mindset & Fondasi Faceless Creator

Mengapa era tampil di depan kamera sudah tergantikan oleh Avatar AI.

Malu Tampil di Depan Kamera Bukan Lagi Hambatan

90% orang gagal ngonten karena malu, tidak percaya diri, atau tidak punya studio bagus.

Di era AI tahun 2026, penonton media sosial tidak lagi peduli apakah seorang kreator itu manusia asli yang merekam dirinya sendiri atau **Karakter AI Virtual (AI Influencer)**. Yang penonton pedulikan adalah:

- ✓ **Estetika Visual:** Gambar dan videonya tajam, bersih, pencahayaan sinematik, dan memanjakan mata.
- ✓ **Relevansi Konten:** Informasi produk Shopee/TikTok yang ditawarkan jelas dan bermanfaat.
- ✓ **Konsistensi Posting:** Akun selalu aktif mengunggah 3-4 kali sehari tanpa pernah lelah atau mengeluh sakit.

Menguasai Google Labs Flow & Ekosistem FX

Mekanisme kerja node visual Google Labs Flow untuk produksi foto & video kilat.

Apa Itu Google Labs Flow (Flow Workspace)?

labs.google/fx/tools/flow

Google Labs Flow adalah kanvas kerja visual berbasis blok (*Node-based pipeline*) buatan Google. Di sini Anda bisa menghubungkan berbagai mesin kecerdasan buatan Google secara visual tanpa perlu menulis koding rumit.

Nama Node / Fitur	Mesin di Balik Layar	Fungsi Praktis untuk Kreator
Image Generator	Imagen 3	Menghasilkan foto karakter fotorealistis kualitas 4K dalam hitungan detik.
Video Generator	Veo 2 / Fast	Mengubah foto diam menjadi klip video gerak 1080p yang natural.
Reference Anchor	Style & Face Lock	Mengunci wajah asli agar tidak berubah saat dipindahkan ke pakaian/latar baru.
Text / Caption Assistant	Gemini 2.5 Flash	Menyusun deskripsi prompt dan naskah copywriting produk secara otomatis.

Rahasia Alur Kerja (Flow) Tercepat:

Hubungkan **[Foto Referensi Wajah]** ➔ **[Node Image Generator + Prompt Baju Shopee]** ➔ **[Node Video Generator Veo]**. Anda akan mendapatkan 1 video promosi produk utuh hanya dengan 1 kali klik!

MODUL 3

Formula Prompting Realistis (Anti-Plastik)

Struktur kalimat wajib agar hasil AI terlihat 100% seperti foto kamera sungguhan.

Rumus 5 Elemen Prompting Fotografi Nyata

Jangan cuma tulis "beautiful girl", gunakan formula ini:

Elemen 1

Subject & Ethnicity

Definisikan usia, postur, etnis (misal: Indonesian young woman/man), dan gaya rambut spesifik.

Elemen 2

Camera & Lens Realism

Sebutkan tipe kamera nyata: *Sony A7IV, 85mm f/1.8 lens, shallow depth of field.*

Elemen 3

Lighting Setup

Gunakan pencahayaan natural: *Golden hour sunlight, soft natural window light, subtle rim light.*

Elemen 4

Skin Texture Detail

Kunci anti-plastik: *Realistic micro skin pores, natural skin texture, subtle freckles, no airbrushing.*

Contoh Penerapan Formula (Coba Salin):

MASTER PROMPT: PERSONA WANITA INDONESIA (OOTD CAFE)

A candid street portrait of a 22-year-old Indonesian woman sitting at a modern minimalist cafe outdoor terrace. She is wearing an oversized beige knit sweater and high-waisted linen trousers, holding an iced matcha latte. Natural relaxed expression, genuine soft smile, authentic skin texture with visible micro-pores and delicate facial hair, no airbrushing, no plastic sheen. Shot on Sony A7 IV with 85mm f/1.4 lens, natural morning sunlight filtering through trees creating soft dappled shadows, creamy bokeh background, 8k resolution, photorealistic, cinematic color grading.

MASTER PROMPT: PERSONA PRIA INDONESIA (STREETWEAR CASUAL)

Authentic cinematic photo of a 24-year-old Indonesian man wearing a heavyweight 330gsm black streetwear hoodie and relaxed cargo pants, standing in an urban loft setting near a large glass window. Confident warm smile, clean short textured fade haircut, natural skin imperfections and authentic texture, sharp focused eyes. Shot on Fujifilm GFX 100S, 50mm lens at f/2.0, soft directional side lighting, hyper-realistic, rich contrast, filmic look.

Negative Prompt Wajib (Anti-Gagal):

Masukkan kata-kata ini ke kolom Negative Prompt: *plastic skin, 3d render, cartoon, doll, drawing, anime, smooth skin, wax figure, extra fingers, deformed eyes, over-saturated, blurry.*

MODUL 4

Konsistensi Karakter Menggunakan Wajah Asli

Teknik mengunci struktur wajah agar tetap identik di 100 foto berbeda.

Metode Reference Anchoring (Kloning Wajah Asli)

Cara mengubah foto selfie Anda menjadi avatar AI yang konsisten.

1

Siapkan 3 Foto Wajah

Ambil 3 foto selfie pencahayaan terang: 1 lurus menghadap kamera, 1 sudut 45 derajat kiri, 1 sudut 45 derajat kanan dengan ekspresi netral.

2

Upload ke Reference Node

Di Google Labs Flow / Omni Flash, masukkan foto ini ke dalam slot Reference Image atau IP-Adapter.

3

Ganti Latar & Baju Bebas

Ketik prompt baju Shopee baru. AI akan mempertahankan struktur mata, hidung, dan rahang asli Anda, tetapi mengganti outfit & lokasinya!

Membuat Video Bergerak dengan Gemini Omni Flash

Mengubah foto diam menjadi video gerak hidup, transisi estetik, dan editing instan.

Kekuatan Gemini Omni Flash (gemini-omni-flash)

Google GenAI Interactions API

Gemini Omni Flash adalah teknologi terbaru yang menggabungkan kemampuan pemahaman gambar dan pembuatan video generatif dalam satu tarikan napas.

1. First-Frame to Video

Masukkan foto karakter AI hasil Modul 3, lalu beri instruksi: *"The character slowly turns to camera, smiles warmly, and takes a sip of coffee"*. Video 5–10 detik langsung jadi!

2. Video Interpolation

Berikan 2 foto (Foto A: Baju Biasa → Foto B: Baju Shopee Mewah). AI akan membuat video transisi pergantian pakaian yang sangat halus!

3. Add Editing Elements

Ubah latar belakang video, tambahkan pencahayaan estetik, atau sesuaikan filter warna video tanpa merusak wajah karakter.
